

Teeing Up New Opportunities

We are proud to highlight the League of YES Golf Clinic in partnership with the **Metropolitan Golf Association (MGA)**, a collaboration that brought excitement, opportunity, and new experiences to our athletes. Held at **The Experience in Hauppauge, NY**, the clinic provided a welcoming and supportive environment where our players could learn the fundamentals of golf while building confidence and having fun. Our athletes truly love the game of golf and embrace every opportunity to try new sports in a safe, inclusive setting designed just for them. Watching their smiles, focus, and determination on the course was a powerful reminder of why expanding adaptive sports matters. Through partnerships like this, we continue to say “YES” to new opportunities, new skills, and new dreams for our players.
